Regional Members Comments

On OD-432-14-01-28-Narateen Outreach, I don't have any problem with the content of the handout – but I do have a problem with the multiple fonts that are used and it being a 3 page brochure. I suggest that the content be condensed to 2 pages, using smaller fonts and less of them. A 3 page trifold brochure would be difficult to assemble and twice as expensive as a 2 page brochure which can be put on front and back of a single sheet of paper. If these changes can be made, change my vote to 'Yes'.
